

Bouygues Construction is a global leader in the building, civil works and electrical contracting and maintenance sectors. Organised as seven complementary entities, it has proven expertise in financing, designing, constructing, maintaining and operating buildings and structures, offering its customers a vast range of innovative solutions.

The Group is addressing the environmental challenges confronting its businesses through a pragmatic and far-reaching approach, which covers the design, construction and operation of buildings and structures for which it is responsible. It has the firm ambition of being a leader in terms of sustainable development.
